REIMAGINING THE…

NEAR
COMMUNITY FUND

using

CATALYST
by Vital Point AI

Challenge

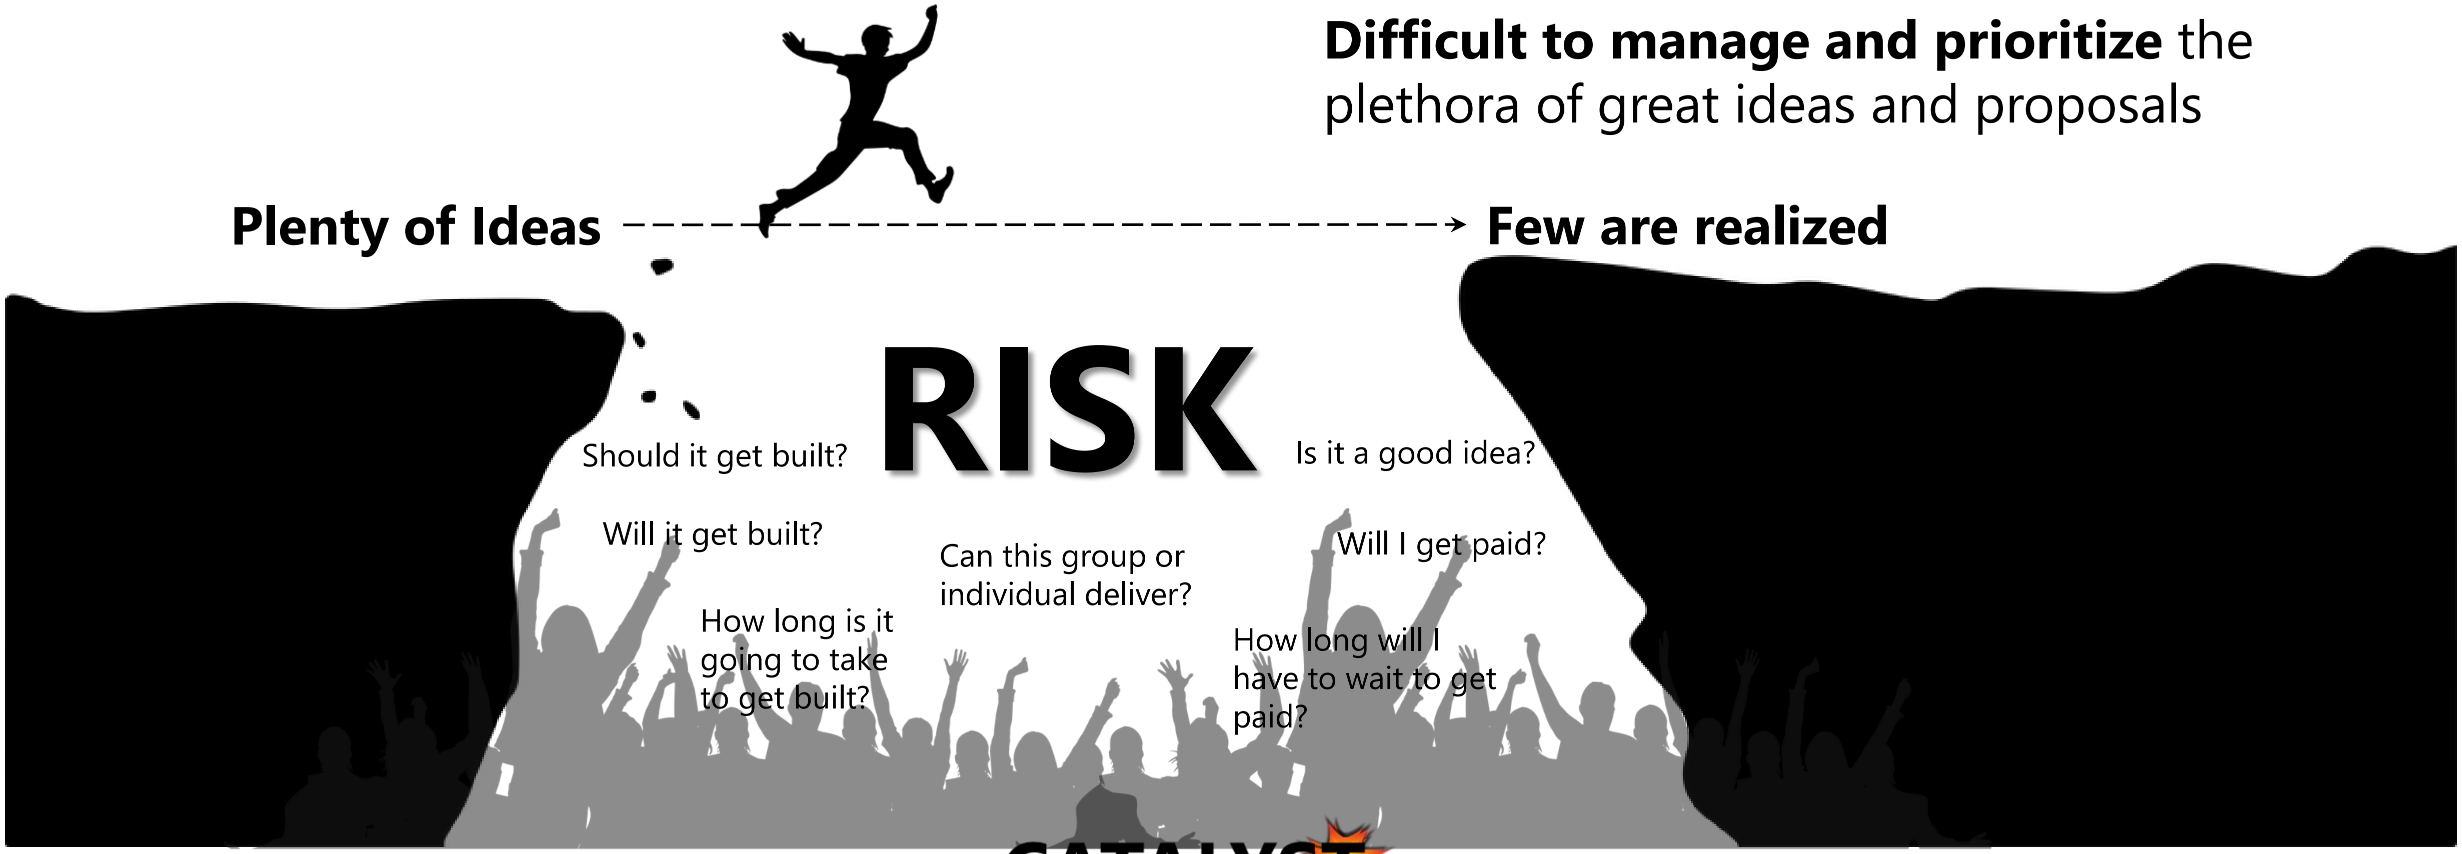
Difficult to setup community governance to manage resources and achieve objectives.

Difficult to mitigate risks associated with online interactions and decisions in support of community objectives

Difficult to manage and prioritize the plethora of great ideas and proposals

Current Situation:

“hope is not a viable course of action”



Plenty of Ideas → **Few are realized**

RISK

Should it get built?

Will it get built?

How long is it going to take to get built?

Can this group or individual deliver?

Is it a good idea?

Will I get paid?

How long will I have to wait to get paid?

CATALYST
by Vital Point AI

Solution

End-State:
Become the “catalyst of self-organization”.

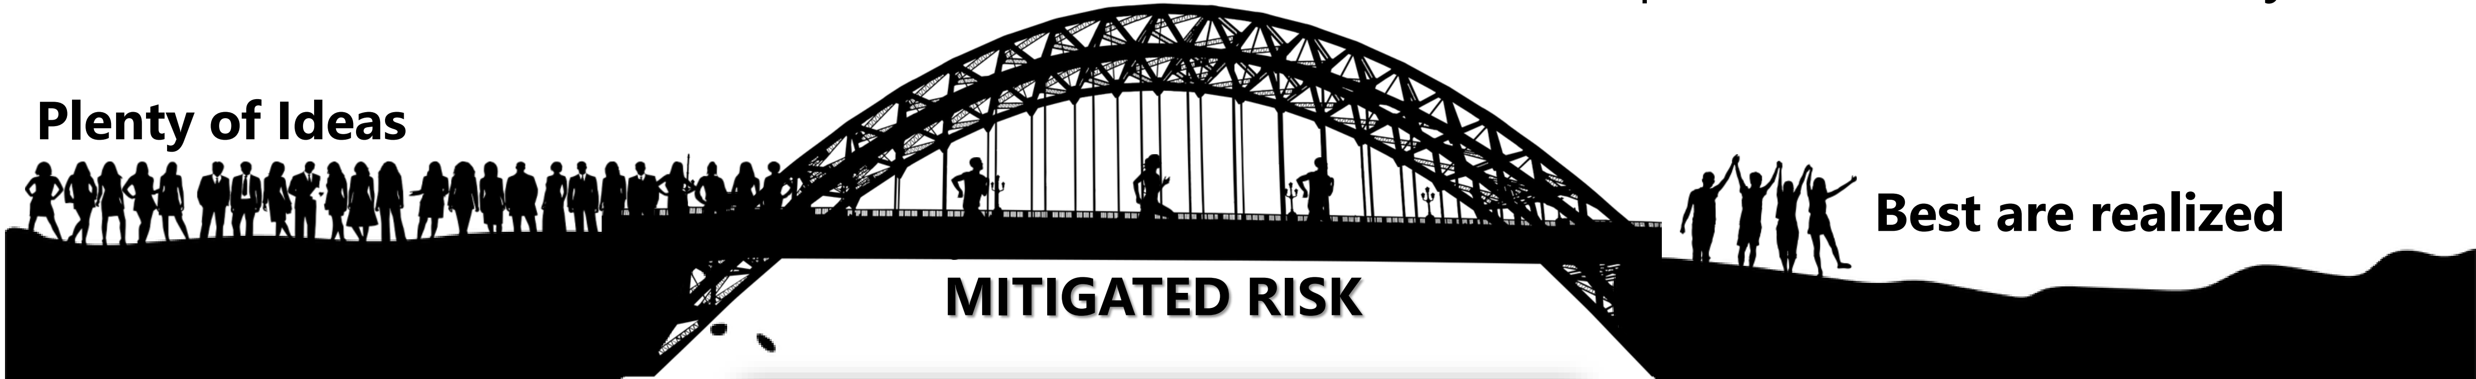
Simple self-organization and customizable community governance

Reduce (eliminate) trust issues

Improve resource management from ideation to delivery and implementation

Automate processes, measure and adjust

Plenty of Ideas



MITIGATED RISK

Best are realized

FUNDING COMMITMENT

Request Funding

Applicant Account: player4.testnet

Funding Requested

You are requesting that **player4.testnet** receive Ⓝ. After submitting this proposal, you must provide enough supporting detail to help other members vote on and decide whether to approve your proposal or not.

☐ You understand this request requires you to transfer **2 Ⓝ**:

Proposal passes:
- Applicant receives Ⓝ.
- Community fund will decrease by Ⓝ.
- 2 Ⓝ proposal deposit is returned to you

Proposal fails or is cancelled:
- Applicant receives no funding.
- Community fund does not change.
- 2 Ⓝ proposal deposit is returned to you.

The **2 Ⓝ** you are about to transfer immediately goes into escrow and stays there until the proposal is sponsored or cancelled.

Demo (TestNet)

Already Implemented…

1. One click community (DAO) setup
2. Easy governance customization
3. Integrated discussion and proposal details
4. Customizable NEAR Account Personas
5. White-label communities
6. Easy voting and proposal processing
7. Community discovery

Coming Up…

- Baseline governance configurations
- NFT support (artists, coders)
- Reputation and identity improvements
- Social/Governance tokens
- Improved community discovery/curation
- Community analytics

Todd is a fantastic human being and would be a tremendous addition to the NEAR community. He has been developing NEAR applications and has a proven track record of completing projects on time. Highly recommended.

☐ Creating a Democracy DAO requires you to deposit **2** Ⓝ.

The **2** Ⓝ you are about to transfer covers the cost of storage of the DAO contract. As this is a democracy DAO, you will have to submit a proposal that receives 51% of the vote in order to delete the DAO and recover this deposit.

Catalyst Roadmap

MVP
ETA: Short-Term

- Running on Testnet
- Democracy DAO
  - NEAR-native Moloch
  - Majority (+) voting
  - NEAR tokens
  - Config governance
- Proposals:
  - Membership
  - Funding
  - Config Changes
  - Open
- DAO Discovery
- DAO Factory
- IDX integration
  - NEAR profiles
  - DID registry
- Invite System

Extension and Testing
ETA: Mid-Term

- Running on Testnet
- Extend DAO configs
  - Oligarchy
  - Plutocracy
  - Autocracy
  - Republic
- Valuation System
  - FT based
  - NEP-21 or NEP-141
- Refine DAO Discovery
  - Categories/search
- Factory -> DAO Forks
- Extend NEAR profiles
- Test Cases:
  - Individual (e.g. Artist)
  - Cause (e.g. climate)
  - Develop (e.g. bounty)
  - Grants (e.g. guilds)

Extension and Testing
ETA: Longer-Term

- Move existing functionality to MainNet
- Documentation
- Marketing/Expansion

- Continue development on TestNet:
  - NFT Support
  - Extend proposal types
  - Extend voting mechanisms

and beyond…

How to Help

- Frontend UI/UX help (React)
- Contract review (AssemblyScript)
- Grants – support/accelerate development
- User Testing – participate and provide feedback in the test cases (April)
- Start your own DAO with Catalyst/provide feedback
- Join the Vital Point AI community
- Learn to develop on NEAR with Vital Point Academy and help me build and extend Catalyst and other Vital Point AI projects.
